FILLMORE

Businesses can now receive tax credits

from Recycling & Enterprise Zones

May 2, 2011

Mayor Eugene Larsen
Fillmore City

Dear Mayor

Thank you for your submission of Fillmore City's Recycling Market Development Zone application. I have reviewed it and found it to be complete.

Congratulation! You are now designated as having a Recycling Market Development Zone within your local jurisdiction. We look forward to working with you and the companies located within these zones. All new or existing qualifying businesses within the areas you have chosen will be eligible for certain state income tax credits in addition to your local incentives for five years starting with the 2011 tax year. This designation will expire December 31, 2015.

The Governor's Office of Economic Development is excited to be a working partner in your community's future.

Sincerely,

Lester E Prall, Program Manager
Recycling Market Development Zone
